

API Research and Sexual Offenders Registry Research:

APIs:

CrimeWatch has a bunch of stuff including sexual offenses

Apartments.com has an API we could use

Zillow also has an API we can use

Sex Offender Registry:

Volusia County Sex Offender registry, we would need to go into each offender individually, need a way to automate it.

<https://offender.fdle.state.fl.us/offender/sops/offenderSearch.jsf>

This website has all of Florida's sex offenders located on a map, maybe we could get stuff from there instead?
